# ABOUT

At Baranska Design we pride ourselves on being one of the most technologically advanced manufacturers of handmade glass in Europe. Our designer, Edyta Baranska has spent almost 25 years working with glass, she specialises in the technique of fusing glass.

We have developed a wide variety of products to cater for different tastes and all using high quality fused glass.

We have the ability to produce in limited or long series; glass tables, mirrors, lamps and accessories, as well as glass wall partitions and other

interior objects for hotels, restaurants, bars and the home.

We also provide interior glass services for office and retail environments.

Our professional in-house team design has a deep understanding of international interior trends and fashions, and we use this knowledge to create designs that match all seasons.

Highly finished, the technical advances used to realise our unique collection of fused glass furniture and accessories provides a new level of sophistication for lovers of designer furniture everywhere.

# SEA FLOWERS

## Glass Chandelier

The shimmering glass elements hanging in space reminded us of the ocean, jellyfish and flowers, hence the name Sea Flowers. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

## Technical information

### Metal frame

Painted steel (any colour), stainless steel

### Handmade glass

Optiwhite, white, silver, gold, blue, turquoise and bespoke colours

### Power LED 2700-4000K

## Private interior

An example of adapting the installation to the interior design. The length and width are selected in accordance with the existing architecture of the false ceiling, railings and steps. The white and transparent colours of the glass add lightness and modernity to the interior, the upper metal frame, painted white, becomes invisible. The entire LCD colour and light intensity are electronically controlled from the phone.

# AUTUMN LEAVES

## Glass Chandelier

Autumn leaves spinning in the wind, glass elements handmade by the old Venetian Murano method, coloured with metal oxides or pure gold. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

# SEA BIRDS

## Glass Chandelier

Sea Birds is a sister project of Sea Flowers. In keeping with current trends, the form is simpler and more geometric, based on a square projected onto a sphere. Its lines fit with any modern interior. Sea Birds is available on request in a variety of size.

# FALLING STONES

## Glass Chandelier

Oval, irregular glass elements are perfect for modern interiors, especially in grey, white and black. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.

## Hotel

Example of installation in a hotel hall, chandelier 4 m long, polished stainless steel top bezel.

The chandelier is suspended on an electric winch, which allows it to be easily raised and lowered by means of a remote control, thanks to which the art glass installation can be serviced and maintained quickly.

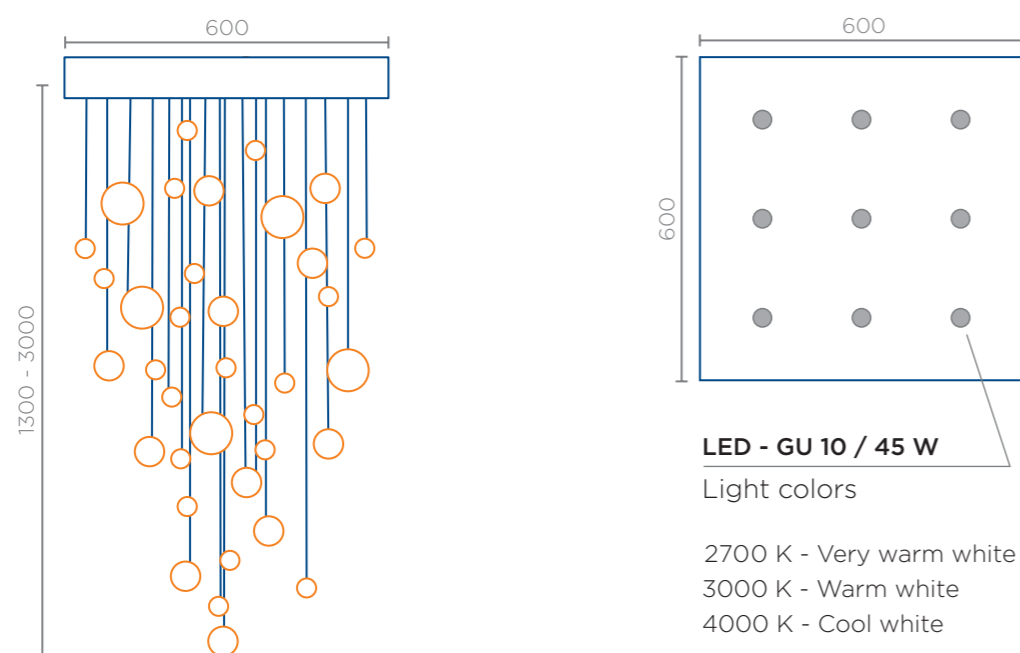

# SNOWBALLS

## Glass Chandelier

The balls always fit into any interior, they are universal in shape, these are hand-made of crystal glass, some are transparent, others antico with tiny air bubbles. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling. BREEZE is available on request as a wall sconce with a height of between 30mm and 2600mm.

# OLD FABLES

## Glass Chandelier

Colorful balls, of various sizes and colors, sometimes with extra stains, each irregularly open, a bit like the old soap bubble game. Each chandelier is designed individually, we adjust the colour of the glass, the length of the installation, the power and the colour of the light. The installation is available with a metal top canopy in any size and colour, we also use a solution with hidden fixings in the false ceiling.
